

SFX: Query Sound Property Values List

List of values for the SFX:Query Sound Property of all maxis default ploppables.

To change the query sound of a custom ploppable, just open the lot in ilive's reader, find the building exemplar, then go to the SFX:Query Sound entry, and finally copy-paste the desired value into that entry.

Note: The yellow marked entries need to be added. I failed to read them out. Anyone?
