

Hello Leonard Massey,

Please follow the below mentioned steps if you want to play the game by using disc:

1. Insert game disc there into CD drive and it will show your game installer there in pc screen.
2. Once click on install button, it may be take you on origin for login.
3. Once you are logged into origin there, please minimize origin program window. (Note: Please be logged into origin there during all process)
4. Now please go to this way: Start button/computer.
5. Then right click on game disc drive, click on Eject. You will see your cd disc out from drive.
6. Please re-insert the disc into drive now, it will appear again Autorun window there.
7. Please close the Autorun window.
8. Go back to start/computer window, right click on game disk drive, then click on Open.
9. It will show there all games files.
10. Please try to find out Setup Application file among all files, double click on it to run this game installation.

Thanks for contacting EA help.

Have a nice day.
